The following is an examiner's statement of reasons for allowance: The closest prior art is that of Hueppauff et al., DE 197 04 031, who disclose compounds of formulae I-IV useful as electroluminescent compounds. Although formulae I and II disclose compounds wherein the triaminobenzene moiety may be substituted by groups such as phenyl, naphthyl, anthryl, etc., the selection of applicants compounds would be from a wide variety of compounds. Examples I-1 and I-2 differ from applicants' compounds at three positions in the molecules. Shirota et al., US 5,508,136, is cited as state of the art only.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Peter G. O'Sullivan at telephone number (571)272-0642.
